

CANNON ART GALLERY

FamilyOpenStudios 2013

Family Open Studios are hands-on art-making events for all ages. They're great fun, educational – and **free**. And they're not a secret anymore (although they never were). Lots of families and friends come out for each studio – and that means more fun for everyone. **Here's how they work:**

First, tour the exhibition in the William D. Cannon Art Gallery. That's the warm-up to get you inspired. Then, work with our terrific artist educators and talented volunteers on an art project related to the exhibition. Finally, you get to take your completed work of art home. We provide all the materials and the workspace, you provide the creativity. No reservations required, stay as long as you'd like.

Mark your calendar, don't miss a single one!
